

Dear Colleagues

This is the First Announcement and Call for Papers for **TEMU2008**, an International Conference on Telecommunications & Multimedia. The event will be held in Ierapetra, Crete, Greece on Wednesday 16th - Friday 18th July, 2008. TEMU2008 is an international conference held every two years, presenting new and original research results and the latest in the -state-of-the-art in Telecommunications and Multimedia. It fosters communication and discussions among researchers, scientists and students working in the design, implementation and applications of telecommunications and multimedia fields. The 2008 conference will provide a three-day Scientific Program, including presentations of invited and regular papers from researchers, manufacturers, academia and services providers.

Authors are invited to submit novel, challenging and innovative results on both theoretical and practical aspects of the scope of the conference, which includes but is not limited to:

- Internet of The Future
- Beyond NGN
- Network & Service Infrastructures
- Broadband Networks
- Ad-Hoc and Mobile Networks
- Optical Communications and Fiber Optics
- Satellite & Space Communications
- Interactive Broadcasting
- Broadband Services and Applications
- Real time Applications
- IPTV, Mobile TV and P2PTV
- 3DTV, HDTV
- Quality of Service
- Security, Privacy and Billing
- Multimedia Authoring Tools
- Electronic commerce
- E-health and E-learning applications
- Multimedia Processing, Coding and Compression Technologies

I cordially invite you and your collaborators to submit a paper (deadline extended: 18th February, 2008).

Kind Regards

Dr. Evangelos Pallis  
Technical Program Chairman
